

第一級海上特殊無線技士「英会話」試験問題

(注) 解答方法： 選択肢の中から最も適切な答えを一つ選び、その番号に対応する答案用紙のマーク欄を黒く塗りつぶしなさい。

- QUESTION 1** Tokai Maru, this is the fishery inspection vessel. How long have you been fishing in this area?
1. Just two weeks.
 2. Bunkering will finish in thirty minutes.
 3. The total fish catch so far is about three tons.
 4. Go ahead. The fish hold is ready for your inspection.
- QUESTION 2** Port City, this is Kyushu Maru. We will arrive at your port behind schedule due to the storm. Can we have the tugboat service late at night?
1. It depends on the draught of your ship.
 2. Yes, but you must book it in advance.
 3. The Port Regulations say that ships of your size should take two tugs.
 4. The tugboat service is necessary for any large ship leaving or coming into the port.
- QUESTION 3** Haneda Maru, this is Coast Guard Radio. We have been informed that you have run aground near the port. Tell me your present situation.
1. I need bunkering before departure for the next port of call.
 2. I will alter my course to the southeast to avoid running aground.
 3. I am sailing toward the port with the lighthouse on my port side.
 4. I am abandoning cargo and pumping out water to refloat at high water.
- QUESTION 4** Misaki Maru, this is the headquarters of ABC company. I understand you are making a detour to avoid Typhoon Nancy. Will you update your estimated arrival time?
1. My ETA (estimated time of arrival) will be 7:30 UTC.
 2. We left the last port of call two hours behind schedule.
 3. We have no information on the estimated course of Typhoon Nancy.
 4. No problem. Typhoon Nancy is not so big, according to the NAVTEX information.
- QUESTION 5** Osaka Maru, this is Port City. Pier 3 is not now accessible. We will assign a new berth to you. We want to confirm your length. Tell us your LOA.
1. My air draught is 35 meters.
 2. Tell me why the pier is not accessible.
 3. My LOA (length overall) is 165 meters.
 4. The gross tonnage of the ship is 11,000 tons.
