(注) 解答方法： 選択肢の中から最も適切な答えを一つ選び、その番号に対応する答案用紙のマーク欄を黒く塗りつぶしなさい。

QUESTION 1 A company has declared a total ban on smoking on its premises. Where can employees smoke now?

1. They can smoke in the company lounge.
2. They can only smoke outside the company's grounds.
3. They can smoke if they ask their boss for permission to do so.
4. They can smoke in the entrance hall of the company's buildings but not outside.

QUESTION 2 Certain gases like carbon dioxide and methane tend to trap heat in the atmosphere, causing the earth to warm up. What do we call these gases?

1. Solar winds
2. Carbon footprints
3. Greenhouse gases
4. Liquefied petroleum gases

QUESTION 3 A stationary observer sees a truck traveling along a road at 40km/h. To another observer in a car traveling at 40km/h in the same direction, the same truck appears not to move. What can you conclude from this observation?

1. Relative motion is impossible to describe.
2. Motion is perceived in relation to a reference point.
3. Motion can be described without any reference point.
4. The perception of motion is always the same regardless of how the observer is moving.

QUESTION 4 Among the various states of the sea, which of the following best describes a swell?

1. A very calm sea during summer
2. The white tops of sea waves usually observed in rough seas
3. A temporary pause in the wind between land and sea breezes
4. An up-and-down sea movement resulting from the propagation of distant waves

QUESTION 5 A cargo ship is moored with several lines. What will the ship do once it has singled up its lines?

1. The ship will slow down.
2. The ship will change course.
3. The ship will moor at the quay.
4. The ship will set sail from the quay.

- QUESTION 6** Several design features are used to stabilize large ships. Balance is one of them. What do we call the water that keeps a ship in a well-balanced position?
1. Bilge water
 2. Potable water
 3. Ballast water
 4. Cooling water

- QUESTION 7** You are the master of a ship and about to enter a canal. As your ship approaches the canal, you are told to wait for half an hour for lock clearance. What might that instruction have said?
1. To wait at the lock lay-by
 2. To come again tomorrow morning
 3. To proceed to the lock as fast as possible
 4. To detour to the lock to avoid congestion
