(注) 解答方法： 選択肢の中から最も適切な答えを一つ選び、その番号に対応する答案用紙のマーク欄を黒く塗りつぶしなさい。

**QUESTION 1**      The footballer has bounced back from the disappointment of conceding the penalty kick. How is he doing now?

1. He is playing as well as ever.
2. He is hanging back in his own goal area.
3. He looks discouraged and cannot play as well as before.
4. He was substituted immediately after the penalty kick.

**QUESTION 2**      The detective asked me if by any chance I recognized someone in a photograph. What was he hoping for?

1. He thought I might know the person in the photo.
2. He was sure I would know the person in the photo.
3. He wanted the chance to see some of my old photographs.
4. He did not intend to give me any chance to say I knew the person.

**QUESTION 3**      You bumped into an old friend last week. It was the first time since you both graduated from high school. What might you have said to him?

1. Where did you go last week?
2. I am tired of meeting you every day.
3. It is very nice to meet you like this every day.
4. We haven't seen each other for ages. How have you been?

**QUESTION 4**      You are the radio operator of a ship. You have received a message to be careful of a hampered vessel in your vicinity. What is a hampered vessel?

1. It is a vessel powered by LNG.
2. It is a vessel for carrying passengers.
3. It is a vessel for carrying dangerous cargo.
4. It is a vessel with limited maneuvering ability.

**QUESTION 5**      What is a vessel's principal control center, from which the captain and officers can manage the navigation and all other vessel operations?

1. The stern
2. The bridge
3. The funnel
4. The foredeck

**QUESTION 6**      Twice a month, when the Earth, Sun, and Moon line up, their gravitational power combines to produce exceptionally high tides. Such tides are called spring tides. When do they occur?

1. In the spring season
2. During a full or new moon
3. At half moon (the first-quarter or third-quarter moon)
4. When the Sun and Moon are at right angles to one another

**QUESTION 7**      A lock is a section of a canal or river with gates that control the water level to raise and lower vessels passing through it. Which of these canals has no lock gates, the Suez or the Panama Canal?

1. Both the Panama and Suez Canals have lock gates.
2. Neither the Panama nor the Suez Canal has lock gates.
3. The Panama Canal has lock gates, but the Suez Canal does not.
4. The Suez Canal has lock gates, but the Panama Canal does not.
